Newari

Experience

Jan 2021- Present
Oxpan Microsys Pvt Ltd l Baneshwor, Kathmandu
Mid-Level Developer

As a Mid-Level Developer, I contributed to the Backend Development of various web application:
- Collaborating with the Mobile Banking team to create and integrate the required end points for the mobile app.
- Developing and securing various end points with authentication and authorization mechanisms and documenting the API for the Front End team.
- Managing the cloud infrastructure for hosting the web API.

2017 - 2021
Oxpan Microsys Pvt Ltd l Baneshwor, Kathmandu
Junior Developer

In this phase, I worked on several desktop application projects for the company. My responsibilities included:
- Creating tables, views, and stored procedures for the application.
- Developing forms and windows using WinForms and WPF, and using ADO.NET for database communication.
- Testing and debugging the application.
- Adding and improving features based on user requirements.

2016 - 2017
Oxpan Microsys Pvt Ltd l Baneshwor, Kathmandu
Technical Officer/Trainee

I joined the company as a Technical Officer and a trainee developer. My main role was to provide technical support to the clients who used the company's Financial/Accounting Software. This helped me learn about the accounting systems of different organizations. I also had the opportunity to explore various C# frameworks such as WinForms, WPF, ASP.NET, and more. I became familiar with SQL and database management using MSSQL Server.
